Gary –

We've been discussing whether that approach to Request 3 (Oak Creek) and Request 4 (St. Francis) is possible – I can give you a call tomorrow to discuss.

Thank you –

Linda

Linda:

I am following up from the voicemail I left you on May 10<sup>th</sup>. We're interested in resolving your client's concerns with Request No. 3 in the Oak Creek section 114 information request and Request Nos. 3 and 20 in the St. Francis section 114 information request. We propose the following.

- **Request No. 3 (Oak Creek) and Request No. 4 (St. Francis):** In lieu of providing the name of the vendor or supplier in response to these requests, please provide a generic reference to each supplier ("Supplier 1" or "Vendor 1") and the category of business for each of the suppliers or vendors (e.g., paint, solvent, chemicals, etc.). We reserve the right to renew our request for the vendor and supplier names at a later time if necessary.
- **Request 20 (St. Francis):** Please have your client's consultant work with Alexandra (Sasha) Letuchy (cc'd) to determine how best to proceed with the pre-survey that is the subject of this request. It is imperative that this pre-survey be completed as soon as possible and that the testing occur shortly thereafter. We are confident that your client's consultant and EPA engineers can come to an agreement on how best to conduct the pre-survey.

As I mentioned during our last call, I will be leaving the Agency. Please contact Randa Bishlawi (cc'd), an ORC attorney, with any questions.

Thank you,

Gary
